

B HALL
7 OCTOBER (SUNDAY)
10.00-13.00

SYMPOSIUM
"CHESS FOR EDUCATION AND DEVELOPMENT"
(B Hall)

The Symposium will present the International Project "Chess for Overall Development" based on the principles of cultural and historical psychology and the reflexive and activity approach. As part of this project, an original approach to chess lessons aimed at the overall development was created, and a computer program for individualizing the learning process was developed. Participants will also discuss the possibility of correcting developmental disorders via chess.

Co-Chaired by:

Prof. Victor K. Zaretsky, PhD (Psychology), Professor of the Department of Individual and Group Psychotherapy at the Faculty of Psychological Counseling, Head of the Laboratory of Psychological and Pedagogical Problems of Continuous Education of Children and Young Adults with Special Needs and Disabilities at the Institute of Inclusive Education in the Moscow State University of Psychology and Education under the Ministry of Education of the Russian Federation (Russia)
