Goal: To analyze academic, methodological and practical problems and achievements in the field of psychological support for children at various risks.

The attention will be focused on modern challenges and new requirements to professionals working with minors and the youth with deviant, illegal, addictive behavior, child victims of criminal assault and bullying, children from socially vulnerable groups (migrants, including illegal ones, the homeless, etc.), orphans and those without parental care, children with health limitations (including those with mental disorders), children from families with impaired functionality.

Participants:

- specialists of the education system (education psychologists of schools and psychological centers, heads of educational organizations of various profiles),
- psychologists working with children in the healthcare system, child psychiatrists and narcologists,
- employees of the Investigative Committee, the Ministry of Internal Affairs, the Ministry of Justice of Russia, courts working with juvenile offenders and victims,
- specialists of commissions for the affairs of minors and protection of their rights, of institutions for culture, sports, leisure, the sphere of family and youth policy, and
- NGOs.
